

# Seeking stories about language and translation

Have an **interesting or funny story** about **translation** or a **gap in language**?

Do you use **online translation** to talk to people you know or don't know online?

Ever been in a **relationship** with someone you don't share a common language with?

Or maybe you know someone who has?

### What's all this, then?

Paper Radio is a unique alloy of storytelling, sound design and illustration, focussed on the best stories from Australia and NZ - truth, fiction and the rest.

Hear what we do at **[paperradio.net](http://paperradio.net)**, and from time to time, on your radio.

We'd love to hear from you!
